

acasa3

Delivering critical aircraft market information to your business

ACAS 3 has been developed specifically in response to your needs and delivers the market's most timely and detailed aircraft data, reporting and forecasting.

ACAS3 will help you to:

- **React first:** With daily updates on fleet data, aircraft orders and aircraft retirements, ACAS 3 will ensure you're always the first to know.
- **Forecast, analyse and benchmark:** With ACAS 3 innovative reporting tools you can forecast aircraft retirements and delivery rates to really discover where your next customer is coming from.
- **Win business and save time:** ACAS 3 contains all the data you need, in one constantly updated service. In fact, 85% of subscribers would choose ACAS if they could only have one source of aviation data.*

How ACAS3 can help YOUR business...

- **Market Analysis:** When it comes to budget time, ACAS is your authoritative source for historical performance, market share and orders. Forecast fleets and maintenance demand using unique ACAS tools.
- **Sales:** ACAS makes targeted mailings / emails easy. Add your own contacts, tags and notes.
- **Product Support:** How are your products being used? Full utilization data by aircraft or fleet - ideal for reliability work.
- **Aircraft Trading:** ACAS includes parked aircraft and lease durations - use together with the Availability and Values options to search for aircraft available for sale or lease.

ACAS provides the following information:

- Fleets to tail/serial number level**
- Hours/cycles
- Aircraft and fleet history
