PROFILE

Finnair is celebrating its 85th anniversary. The experience gained is shared with our many customers.

Simulator dry lease to airlines: A320, A330/340, ATR42/72, B757, EMB170, MD11, DC9. The Finnair Flight Training Center offers its customers high quality, reliable and well maintained simulators as well as exceptional customer support.

Internet training for pilots and cabin crew. Modern, flexible and cost-effective training on topics such as: crew resource management, low visibility CAT 2/3 operations, winter operations, dangerous goods regulations and cabin training subjects. The courses meet JAA /EU OPS requirements and are used globally by numerous operators and thousands of pilots.

Our internet-based crew resource management course can be studied flexibly from any location. This extensive course provides an excellent basis covering the JAA syllabus and allows substantial time and cost savings compared with traditional classroom lectures.

HIGHLIGHTS

- Fleet of modern simulators
- Web-based training for crews
- Unique customer service
