PROFILE

The JAA Training Organisation (JAA-TO) provides training courses in multiple areas of aviation safety, aiming to promote the understanding of existing and new aviation rules and regulations, and improve aviation safety worldwide.

As a non-profit organisation, we re-invest all surplus funds in training courses or facilities. Further JAA-TO participates in the Technical Assistance Program, supporting Aviation Authorities and organizations in their goal to enhance their aviation safety level.

Our outstanding courses are delivered by experienced, top level trainers. Additionally, JAA-TO closely works together with various well-established European Universities, recognized international aviation organisations, and highly recommended business partners worldwide.

Our state-of-the-art premises in Hoofddorp offer utmost comfort and our training rooms are equipped with multifunctional audio systems and the latest presentation means.

Feel good, learn better!
