PROFILE

We have been in the training design business for over 35 years, developing bespoke solutions for airlines using a variety of technologies.

Our expertise is in the design and implementation of effective training aimed at achieving superior crew competence. We deliver regulatory compliant HF and CRM courses but we have also pioneered training in cross-functional collaboration aimed at improving operational efficiency and safety. Our facilitators are UK CAA-approved. We also specialise in performance assessment and training evaluation.

We cover the full spectrum of ground training requirements.

From CBT, through e-learning to facilitated delivery, we can solve all your crew training problems.

HIGHLIGHTS

■ CRM courseware production and facilitator development

■ ATQP implementation (EU-OPS 1.978)

■ Evaluation of training effectiveness

■ Trainer Accreditation

■ Safety Systems implementation

■ Investigator Training
