## PROFILE

Lufthansa Resource Technical Training (LRTT) is an EASA Part 147 approved basic training organisation formed as a joint venture partnership between two major European aviation players in Lufthansa Technical Training and Resource Group. LRTT's clients include aircraft manufacturers, OEMs, international airlines, VIP operators, budget and charter airlines, air taxi operators and private individuals. LRTT currently hold approvals for the following licences; A1, A3, B1.1, B1.3 and B2 which cover all categories of fixed and rotary wing certifying staff.

LRTT offers fully approved basic courses for ab-initio students, modular courses for experienced engineers and a wide range of skills courses across a variety of subject matter areas. An industry embedded training company, LRTT does not have a set academic year and utilises a flexible cost effective approach to deliver a bespoke solution to the client or individual, designed to fit with operational requirements.

## HIGHLIGHTS

- EASA Part 147 approved
- Main facilities comprise a training hangar which houses a fully operational airliner and helicopter
- LRTT offers training all year round as we do not have a set academic year
- LRTT offers a range of hand skills courses from composite structures to electrical hand skills
- Industry embedded training organisation, offering courses that the industry needs
- Flexible approach to course delivery and location
