### PROFILE

Manhattan Aviation Services was formed in 2002 by Darren Gates and Amy Duke. Aircraft maintenance type training became the main focus of the company from its early days.

The concept defined at the beginning was simple:

to provide cost-effective training solutions, very good instruction, coupled with great flexibility to suit the customer's requirements. It is this core philosophy that has enabled the company to continue to grow.

The official opening of our new headquarters and training centre on the Isle of Man is the culmination of a great deal of work by the Manhattan team this year.

We were very grateful to His Royal Highness The Duke of York KG when he graciously agreed to open our new world class facilities.

### HIGHLIGHTS

- Fully approved EASA part 147 training organisation
- Dedicated well qualified staff
- Competitively priced course structure
- Excellent teaching facilities at both IOM and Heathrow
- Good range of aircraft types
- Committed to continuously improving the learning experience
