LAN Airlines	361

Final	
Winner Semi Final 1	
Korean Air	438
Winner Semi Final 2	
American Airlines	6,569

3rd place play off	
Loser Semi Final 1	
KLM	146
Loser Semi Final 2	
LAN Airlines	245

$$\frac{[(F+R)+(W+10)][(O+T+2)(BP+10)]}{X^2} \times \frac{S}{10}$$

**THE KAMINSKI INDEX™**  
Flightglobal's complicated formula – known as the Kaminski Index™ – helps calculate an overall figure based on nine separate data sources. Values featured in the formula included change in world airline ranking, number of operational routes and current fleet size. Crucially the Index also includes a random integer – representing the vital element of luck.

- F** Fleet [Squad strength]
- R** Route [Tactics]
- W** Change in *Airline Business World Ranking* [Form]
- O** Aircraft on Order [Attack]
- T** Sky Trax Rating [Defence]
- B** Airline Boss experience (years) [Coach]
- P** Annual Passengers (millions) [Fans]
- S** Livery Rating [Style]
- X** Luck factor
